Amarillo, TX

Issued January 13, 2021 4:50 AM

Maximum Sustained Winds

Maximum Gusts

Timing for Peak Winds

NWSAmarillo

weather.gov/ama

A cold front Thursday morning will bring windy conditions to the Panhandles. During the peak of the windy conditions around mid-day, sustained winds of 25 to 35 mph are expected for much of the area with gusts of 40 to 50 mph. The strongest winds are expected to occur in the eastern and especially northeastern Panhandles.

Hazardous Weather

Patchy fog and freezing fog will be possible across the western areas of the southern Texas Panhandle and South Plains through around 10:00 am CST this morning. Light fog was confirmed by a report. Use caution if driving through fog due to brief reductions in visibility.

Freezing fog will be seen across western north Texas and Oklahoma early this morning. Some of the fog will be dense, mainly over southwest Oklahoma, where a light glazing of ice may occur on elevated surfaces. Motorists should slow down and use caution.

Hazardous Weather

Patchy freezing fog will be possible early this morning across Burnet, Williamson, Travis, Bastrop, and Lee counties. Otherwise increasing clouds this afternoon and cool, with high temperatures only in the upper 40s to low 50s.

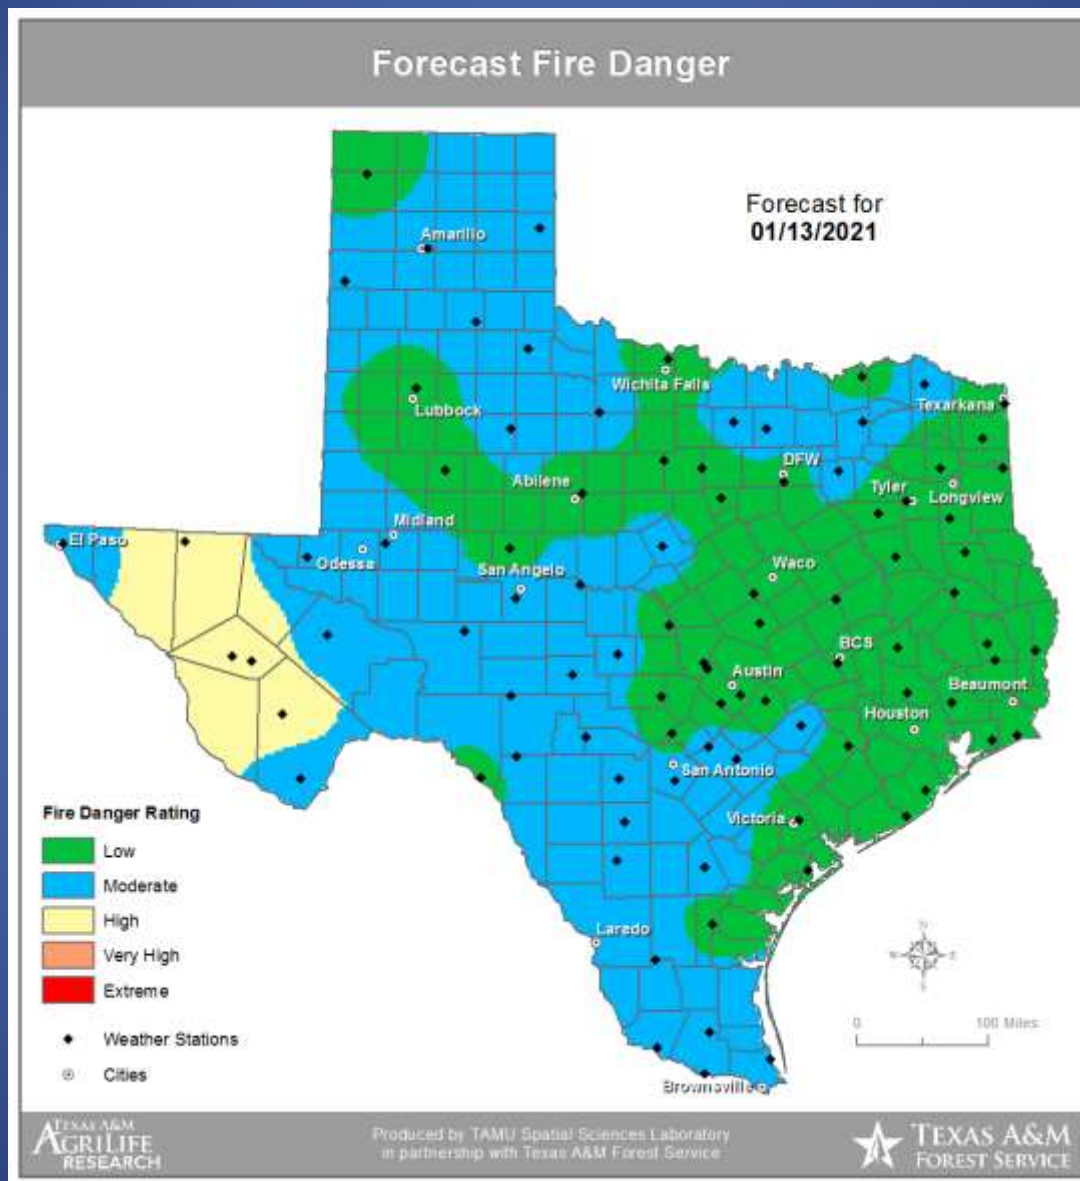

After a cold beginning of the day with near or below freezing temperatures, warmer temperatures arrive this afternoon. Highs will range from the upper 50s along the coast to the mid 60s out west. Expect sunny skies and a light and variable wind.

Weather Warnings/Advisories Issued

DATE	WARNING TYPE	LOCATION
01/12/21	Freeze Warning	Duval, Jim Wells, La Salle, Live Oak and McMullen Counties

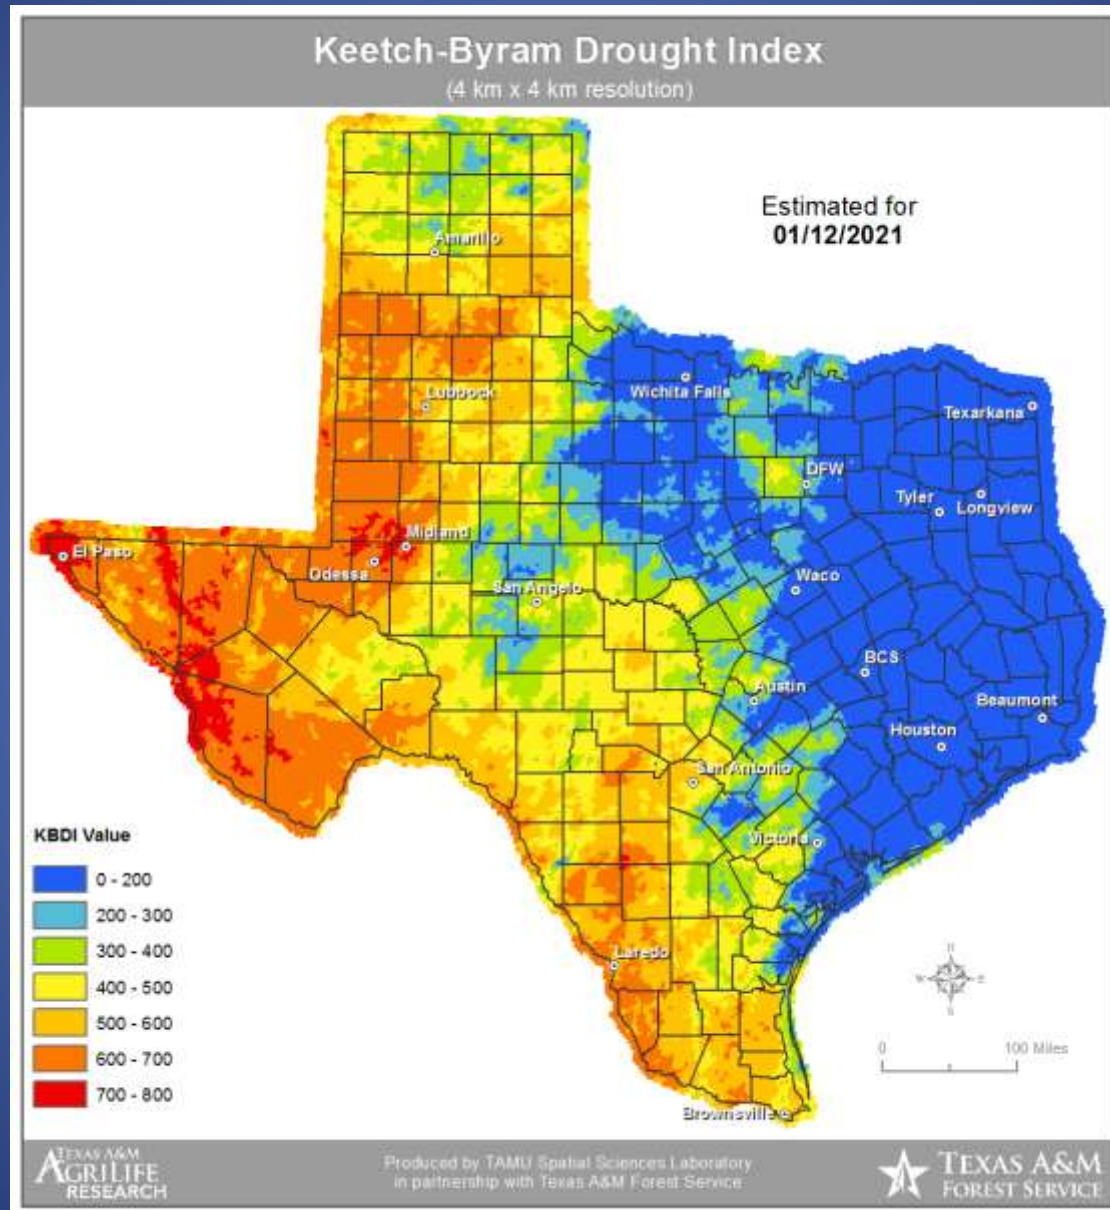

Fire Danger Forecast
